Dear Thomas Wu:

On behalf of Evelyn Lauder and our entire team, I would like to thank you for the thoughtful and generous contribution of \$ 203.33 to The Breast Cancer Research Foundation. This gift will help save lives. You can be assured that your funds enable world-class and rising star researchers to act quickly on promising leads, moving advances more directly from the laboratory to patients.

BCRF, the most highly rated breast cancer organization in the US, is proud to report that in October 2008, we announced \$34.5 million in grant awards to 166 researchers across the United States, and in Australia, Canada, Latin America, the Middle East, and throughout Europe. With your crucial research dollars, our investigators are at the forefront of discovery and progress on many fronts. We support collaborative projects that combine the power of many brilliant investigators across the globe, working together in a multidisciplinary approach to improve the understanding of breast cancer biology and to test new therapeutic strategies. We firmly believe that collaboration will accelerate new discoveries bringing us closer to prevention and a cure. The expertise of our Scientific Advisors ensures that our funds go to the very finest minds on the cusp of the most important breakthroughs.

We vow to put as much money as possible into the hands of the world's best researchers, and to that end, this year we have been able to keep our administrative expenses at only 8% of our total revenues. We also received Charity Navigator's highest rating, four stars, for the eighth consecutive year, thus outperforming over 99.8% of more than 5,400 evaluated charities. In addition, we have an "A+" rating, the highest possible, from the American Institute of Philanthropy.

As a community, we must assist those doing lifesaving work so that together we will put an end to breast cancer in our lifetime. Thank you for believing in our mission and for your support.

With warm regards,

Myra J. Biblowit

President
